President’s Letter

Happy New Year and welcome to 2013. We have survived another presidential election, the end of the Mayan Calendar and the fiscal cliff. All of these were headline stories in the news for months, most of it negative. I wish the New Year to be a positive and productive year for all of OCAPL’s membership. With just over 1700 members to serve, I am honored to be President of OCAPL for 2013.

I would like to personally thank all of the members that serve as officers and on committee’s for OCAPL. It is their dedication and hard work that runs all of the events and services OCAPL provides for its membership. It is a thankless job at times and yet they still serve, thank you again. We strive to provide the best service and act in the best interest of our organization at all times.

It is also very gratifying for our membership to have been able to donate $13,091.33 to Infant Crisis Services and $12,388.95 to Positive Tomorrows this year. All of this would not be possible without your support. In that regard, OCAPL supports OU Energy Management students through a mentor/mentee program that benefits both the students and OCAPL. If anyone would be interested in being a mentor, please contact Larry Patrick at Devon Energy or Steve Long, OU/EM advisor.

We had our first CPL luncheon on Monday, January 7, 2013, with Monty Barnhill, who gave an excellent ethics presentation to a full house at the Petroleum Club. Later that night we had our first Monday Night meeting with our usual January social meeting that was also well attended at the History Center. Our first board meeting was held Wednesday, January 9, 2013, and we welcomed some new committee members to help us this year. Other upcoming events to watch for:

1) AAPL Winter NAPE 2013: February 5-8, 2013
2) OCAPL Field Landman Seminar (Working on April date)
3) OCAPL Fishing Tournament, May 4, 2013
4) OCAPL Golf Tournament, May 20, 2013, at Oak Tree and Gaillardia
5) OCAPL Sporting Clays Tournament, August 30, 2013

I look forward to serving OCAPL and our membership this year and hope to see everyone at our February meeting.

Thank you,

Mike T. Walker
President
Calendar of Events

March 4, 2013  Educational Luncheon & Monday Night Meeting

April 8, 2013  Educational Luncheon & Monday Night Meeting

AAPL’s Quarterly Board Meeting was held Sunday, December 2, 2012 at the Broadmoor in Colorado Springs, Colorado. Thirty-three Directors and twenty Committee Chairs filed reports updating their business since the last quarterly meeting.

The Executive Committee, including all officers and the immediate past president as well as the Executive Vice-President, gave reports directly to the attendees. The following are a number of salient issues brought forth and discussed.

- **Legislative:**
  Ohio remains a hot issue in that their governor desires to register landmen through the Real Estate Commission, a part of the Department of Commerce. AAPL is addressing similar legislation on other fronts. We will submit a recommendation to the Ohio Department of Commerce prior to legislative action in an effort to fend off licensing without considerable input from our professional organizations beginning with the AAPL.

- **Public Relations/Governmental Task Force:**
  To date AAPL’s efforts to combat negative legislation and media have been reactive rather than proactive and has fallen on the shoulders of a volunteer committee chairman. One consideration is whether or not AAPL should create a full time staff position to help pool resources with other trade associations. This would be a major step and not undertaken without considerable deliberation of all pros and cons.

- **Media Relations:**
  Since September AAPL has favorable press published in The Holdenville Tribune profiling AAPL Lifetime Achievement award winner Charles Stanford. Fort Worth Star-Telegram highlighted AAPL’s recent membership growth and achievement. A letter was written to the editor of The Times Reporter from former AAPL director Joseph Haas speaking out against licensing in Ohio. Recognition for Jim Dewbre, Randy Browne and Matt Smith for the Business Journal’s 2012 “Who’s Who in Energy”, an annual list of the industry’s leaders. Also, AAPL was chosen as 2012 Association of the year by The Energy Advocates All were highlights of the positive media exposure the industry is bringing forth.

- **Financials:**
  Treasurer’s report for period ending September 30, 2012 cited the Balance Sheet compared to September 30, 2011 increased 30.3% to $25,049,320. A change of $5,826,930.

- **Winter NAPE Expo:**
  The 20th Anniversary, is coming up February 5-8. The Featured speaker is Gordon Brown former Prime Minister of the United Kingdom. Brown is widely credited with preventing a second great depression through his negotiation of the global deal at the London Summit. Our first regional Expo NAPE East is scheduled to be held in Pittsburg April 10-12.

- **Standards of Practice:**
  Presented to you by e-mail in November, AAPL wrote an open letter to landmen that were members of AAPL addressing the practice of buying and selling ownership and title reports developed while under the employ of a client and/or company. This practice violates AAPL’s and OCAPL’s Code of Ethics and we stand firmly against any practice that would interfere with the integrity of the land profession. This was followed by distribution to OCAPL members whether AAPL members or not.

- **Membership:**
  AAPL total is now 17,700

- **2013 Annual Meeting:**
  June Washington, D.C. June 3-5

Respectfully submitted,
Kent Loeffler, CPL
Region VI Director

REAGAN RESOURCES, INC., is poised and ready to meet the demands imposed on the domestic oil and gas industry as a result of the current economic climate and stringent environmental regulations. By using our services you will be assured of retaining a company that has maintained an active and successful service for over twenty years.

REAGAN RESOURCES, INC., is a full service petroleum land company providing:

- Detailed and cursory mineral and leasehold ownership reports
- Acquisition of oil and gas leases and leasehold interests
- Due diligence for production acquisitions and pipeline system acquisitions
- Digital Imaging
- Bureau of Indian Affairs leasing, permitting, regulations, and procedures
- Surface damage negotiations and appraisals under the Surface Damages Act
- Well site and locations checks
- Pipeline rights-of-way acquisition and Seismic permitting
- Cellular tower sites
- Wind, Solar, and Hydro energy
- Title curative, Title requirements
- Federal, State, County, and Municipal drilling permit acquisitions

At Burleson LLP, energy is not just a practice group, it is our practice. With offices in the major shale plays, we’re the largest firm in the country devoted exclusively to oil and gas law. And our lawyers understand the industry. They’ve been operators, geologists, petroleum engineers, and in-house counsel with major producers. With Burleson’s capabilities, the sky’s the limit.
Continental Land Resources, LLC is one of the largest independent energy land-service companies in the Mid-Continent region. Headquartered in Edmond, Oklahoma, our primary operations include lease acquisition and the determination of mineral ownership as well as many other land services. With strategically placed offices across the country, we are currently providing these services throughout the Barnett Shale, Haynesville Shale, Marcellus Shale, Anadarko Basin, Appalachian Basin, Permian Basin, Mid-Continent, and Texas Gulf Coast areas of the United States.

Our company is dedicated to efficiently providing superior services by using the most skilled people and latest technology possible. This is primarily implemented through our specialized departments and includes a management team with every person having at least 20 years experience. With these proven strategies, we will remain effective in our business and competitive in our industry.
